THERMOCHIMICA ACTA, VOLUME 129 (1988)

SUBJECT INDEX

Absolute rate theory,
volumes of mixing and viscosities of methylacetate + n-alkanes and n-butylacetate + n-alkanes at 298.15 K: an interpretation in terms of the Van–Patterson, the absolute rate and free volume theories (Awwad et al.) 249

Activated carbons,
activated carbons from materials of varying morphological structure (Mortley et al.) 173

Aliphatic β-diketone,
Thermal and spectral studies of some mixed ligand complexes of Co(II), Ni(II) and Cu(II) involving aliphatic and heterocyclic β-diketone (Patel, Thaker) 161

n-Alkanes,
volumes of mixing and viscosities of methylacetate + n-alkanes and n-butylacetate + n-alkanes at 298.15 K: an interpretation in terms of the Van–Patterson, the absolute rate and free volume theories (Awwad et al.) 249

Alloys,
experimental thermochemistry of alloys (Kubaschewski) 11

Akaganeite sample,
thermal behaviour in air of iron oxyhydroxides obtained from the method of homogeneous precipitation. Part II. Akaganeite sample (Goñi-Elizalde, García-Clavel) 325

Ammonium-ion-exchanged zeolites,
a study of heat-treated ammonium-ion-exchanged zeolites by differential scanning calorimetry (Aboul-Gheit) 301

Ammonium magnesium phosphate hydrates,
phase changes on heating ammonium magnesium phosphate hydrates (Abdelrazig, Sharp) 197

Ammonium paratungstate,
thermal decomposition and the creation of reactive solid surfaces V. The genesis course of the WO_3 catalyst from its ammonium paratungstate precusor (Mansour et al.) 187

Ammonium trifluoromanganate(II),
thermal decomposition of ammonium trifluoromanganate(II) (Demšar, Bukovec) 285

Au–In,
a thermodynamic assessment of the Au–In system (Ansara, Nabot) 89

n-Butylacetate,
volumes of mixing and viscosities of methylacetate + n-alkanes and n-butylacetate + n-alkanes at 298.15 K: an interpretation in terms of the Van–Patterson, the absolute rate and free volume theories (Awwad et al.) 249

Cadmium selenide,
vaporization enthalpy of cadmium selenide and cadmium telluride obtained by vapour pressure measurements (Bardi et al.) 341

Cadmium telluride,
vaporization enthalpy of cadmium selenide and telluride obtained by vapour pressure measurements (Bardi et al.) 341

(Co–O) bond-dissociation enthalpy,
standard enthalpy of formation of tris(2,4-pentanedionato)cobalt(III): the mean (Co–O) bond-dissociation enthalpy (Ribeiro da Silva et al.) 229

Coulometric titration,
performance of ZrO_2 electrolyte cells for coulometric titration at high voltage (Werner, Schmid-Fetzer) 127

CW CO_2 laser,
dehydration of some inorganic compounds of CW CO_2 laser irradiation and thermal heating. A comparative study (Popescu et al.) 269

trans-Dichlorotetramminecobalt(III) bisulfate,
kinetic studies on the decomposition of *trans*-dichlorotetramminecobalt(III) bisulfate (House et al.) 263

Ditungsten carbide, W_2C_{1-x},
heat capacity and thermodynamic properties of ditungsten carbide, W_2C_{1-x}, from 10 to 1000 K (Grønvold et al.) 115

Dy–Sb,
on the thermochemistry of the rare earth antimonides. The Dy–Sb system (Ferro et al.) 99

Epoxidized cardanol,
curing kinetics of epoxy resin using epoxidized cardanol as diluent with/without fortifier (Patel et al.) 277

Epoxy resin,
curing kinetics of epoxy resin using epoxidized cardanol as diluent with/without fortifier (Patel et al.) 277
Erbium(III) nitrate,
some observations on the thermal decomposition kinetics of gadolinium(III), holmium(III) and erbium(III) nitrate (Strydom, van Vuuren) 355

Free volume theory,
volumes of mixing and viscosities of methylacetate + n-alkanes and n-butylacetate + n-alkanes at 298.15 K: an interpretation in terms of the Van–Patterson, the absolute rate and free volume theories (Awwad et al.) 249

Gadolinium(III) nitrate,
some observations on the thermal decomposition kinetics of gadolinium(III), holmium(III) and erbium(III) nitrate (Strydom, van Vuuren) 355
$Ge_{40}S_{60}$ glass,
the crystallization of $Ge_{40}S_{60}$ glass (Málek) 293
Group IIA metal ions complexes of phenetsal,
thermodynamics of group IIA metal ions complexes of phenetsal (Chopra et al.) 345

Heterocyclic β-diketone,
thermal and spectral studies of some mixed ligand complexes of Co(II), Ni(II) and Cu(II) involving aliphatic and heterocyclic β-diketone (Patel, Thaker) 161
Holmium(III) nitrate,
some observations on the thermal decomposition kinetics of gadolinium(III), holmium(III) and erbium(III) nitrate (Strydom, van Vuuren) 355
Homogeneous precipitation,
thermal behaviour in air of iron oxyhydroxides obtained from the method of homogeneous precipitation. Part II. Akaganeite sample (Goñi-Elizalde, García-Clavel) 325

Intermetallic compounds,
on the thermochemistry of intermetallic compounds (Predel) 29
Iron oxyhydroxides,
thermal behaviour in air of iron oxyhydroxides obtained from the method of homogeneous precipitation. Part II. Akaganeite sample (Goñi-Elizalde, García-Clavel) 325
Iron–zinc,
a thermodynamic evaluation of the iron–zinc system (Petersen et al.) 77

Lead nitrate,
the effect of γ-irradiation on the thermal decomposition of lead nitrate (Nair, Malayil) 237
Liquid sodium,
on the chemistry of the reactions between liquid sodium and urania–plutonia fuel for fast breeder nuclear reactors (Mignanelli, Potter) 143

Methylacetate,
volumes of mixing and viscosities of methylacetate + n-alkanes and n-butylacetate + n-alkanes at 298.15 K: an interpretation in terms of the Van–Patterson, the absolute rate and free volume theories (Awwad et al.) 249
Mixed ligand complexes,
thermal and spectral studies of some mixed ligand complexes of Co(II), Ni(II) and Cu(II) involving aliphatic and heterocyclic β-diketone (Patel, Thaker) 161

Orthorhombic black phosphorus,
thermodynamic stability of orthorhombic black phosphorus (O'Hare et al.) 55

Partial Gibbs energies,
partial Gibbs energies from Redlich–Kister polynomials (Hillert) 71
Phenetsal,
thermodynamics of group IIA metal ions complexes of phenetsal (Chopra et al.) 345
Phosphorus,
thermodynamic stability of orthorhombic black phosphorus (O'Hare et al.) 55

Rare earth antimonides,
on the thermochemistry of the rare earth antimonides. The Dy–Sb system (Ferro et al.) 99
Reactive solid surfaces,
thermal decomposition and the creation of reactive solid surfaces. V. The genesis course of the WO_3 catalyst from its ammonium paratungstate precusor (Mansour et al.) 187
Redlich-Kister polynomials,
partial Gibbs energies from Redlich–Kister polynomials (Hillert) 71
RuO_2,
the enthalpy of formation of RuO_2 (Cordfunke, Konings) 63

Simulation of DSC curves,
calorimetric determination of purity by simulation of DSC curves (Sarge et al.) 309

Solid oxides of vanadium,
the thermodynamics of the solid oxides of vanadium (Brewer, Ebbinghaus) 49

Tris(2,4-pentanedionato)cobalt(III),
standard enthalpy of formation of tris(2,4-pentanedionato)cobalt(III): the mean (Co–O) bond-dissociation enthalpy (Ribeiro da Silva et al.) 229

Urania–plutonia fuel,
on the chemistry of the reactions between liquid sodium and urania–plutonia fuel for fast breeder nuclear reactors (Mignanelli, Potter) 143

Van–Patterson,
volumes of mixing and viscosities of methyl-acetate + n-alkanes and n-butylacetate + n-alkanes at 298.15 K: an interpretation in terms of the Van–Patterson, the absolute rate and free volume theories (Awwad et al.) 249

Vaporization enthalpy,
vaporization enthalpy of cadmium selenide and cadmium telluride obtained by vapour pressure measurements (Bardi et al.) 341

WO_3 catalyst,
thermal decomposition and the creation of reactive solid surfaces. V. The genesis course of the WO_3 catalyst from its ammonium paratungstate precusor (Mansour et al.) 187

ZrO_2 electrolyte cells,
performance of ZrO_2 electrolyte cells for coulometric titration at high voltage (Werner, Schmid-Fetzer) 127
